Professional Background

Mr. Huang has long been focusing on providing complex and comprehensive legal services to start-up companies, and he is particularly good at handling litigation and arbitration in equity, corporate governance and commercial contracts for start-up companies.

Prior to his practice, Mr. Huang worked in the Audit Department of Shanghai Stock Exchange Center and was responsible for the legal compliance consulting and auditing work of nearly one hundred science and technology enterprises, and he also accumulated a large number of difficult and complex cases in the Provincial High Court, the leading arbitration institutions in China and other judicial departments. Mr. Huang and his team now provide year-round legal services for a number of high-tech enterprises (including high-tech talents and executives employment compliance, external financing legal support, equity-related matters, corporate governance and operational compliance, etc.), and at the same time for a number of science and technology enterprises to deal with their upstream and downstream suppliers of the purchase and sale of products, technical services, product liability and other difficult and complex disputes between the class of cases.

Mr. Huang graduated from Peking University with a master's degree in litigation law and studied European Private Law at the Faculty of Law, Economics and Finance of the University of Luxembourg under the Luxembourg State Scholarship, which provided him with profound theoretical background and solid practical experience.

Social Activities

2022-present | Peking University Science and Technology Alumni Association | Shanghai Regional Director

Honors and Awards

Representative Cases

Dispute Resolution

Represented the beneficial shareholders of a technology start-up company in connection with the termination of the shareholding proxy contract, the struggle for control and the multiple debt disputes arising therefrom between the company and its other hidden shareholders (natural persons of Singaporean and Hong Kong nationality) (Shanghai International Arbitration Center)

Represented a private equity fund (partnership fund) in connection with the removal of a representative appointed by the managing partner from the register and derivative disputes (Shanghai Arbitration Commission)

Represented an investor in a dispute with a private equity fund manager over breach of contract in a private equity fund contract

Represented a Shanghai-based new building materials technology company in a dispute with a township government in Pudong New Area, Shanghai, over the invalidity of an administrative agreement on compensation for volume reduction.

Represented a Pre-IPO start-up company in Wuhan in an equity dispute with a private equity fund during its Series D financing, and ultimately reached a package solution to the dispute through non-litigation.

Represented a private equity fund in a dispute with a municipal government in Shandong over cooperative land development.

Represented a large logistics company in Wuhan in a dispute with a local government agency over the development and exchange of warehouse land.

Represented a Rong Electronics Technology Company in a labor subcontracting case between it and a science and technology company in relation to a municipal project for the construction of a variable voltage project

Represented a large insurance company in Shanghai and its hotel investment company (as the contractor) in construction contract disputes and labor subcontracting disputes between them and various contractors.

On behalf of dozens of science-based enterprises, we have handled many difficult and complex disputes between them and their upstream and downstream suppliers, including product purchase and sale, technical service, product liability, and internal equity and corporate governance.
