Professional Background

Attorney Liu has over 10 years of experience serving clients in the fields of capital markets, dispute resolution, and corporate business.

In the area of capital markets, Attorney Liu has passed the Sponsor Representative Qualification Examination and possesses in-depth expertise in capital market regulations and regulatory practices. He has led or participated in numerous groundbreaking projects with no precedents in China, including: first IPOs of domestic unprofitable enterprises, the first IPOs of hydrogen energy companies, the first major asset restructurings on the STAR Market, the first "debt-assumption" acquisitions of listed company control rights by state-owned funds, the first cross-sector and vertical M&A transactions involving pharmaceutical listed companies under the "Two-Invoice System" policy. Due to his precise understanding of clients' commercial needs and regulatory frameworks, as well as his diligent, responsible, and efficient working style, Attorney Liu has earned consistent praise from listed companies, state-owned enterprises, investment funds, and regulatory authorities across his past projects.

In the field of dispute resolution, Attorney Liu specializes particularly in handling complex corporate-related disputes and regulatory investigations. He has extensive experience in resolving equity and corporate governance disputes, major contract disputes, executive employment and non-compete disputes, as well as regulatory investigations. Representative matters include: assisting a founding team in achieving a complete victory in a VAM (valuation adjustment mechanism) dispute, helping an innovative company secure full success in a significant business contract dispute, supporting an acquisition target in responding to a securities misrepresentation investigation, aiding an innovative enterprise in addressing compliance investigations by enforcement authorities.

In corporate business, Attorney Liu provides financing and general counsel services to innovative enterprises. He has rich experience in addressing legal issues arising from fundraising, equity structure design, employee incentive plans, labor disputes, and pre-IPO coaching. He is especially skilled in assisting innovative companies to proactively and effectively resolve legal challenges from the perspectives of financing and IPO preparation.
