Professional Background

Strive diligently and explore tirelessly, Attorney Yu Jin Yuan has been studying and practicing law for over three decades. He caters to the distinct needs of corporate and private clients by identifying, analyzing, and managing risks, dissecting, designing, and perfecting business models to promote sustainable development for his clients. Through serving numerous state-owned enterprises, private companies, and individuals, Yu has made significant contributions in the fields of energy, internet, artificial intelligence, and animation

creation, and has concurrently secured significant achievements in the specialized domains of compliance management, wealth management and succession, as well as dispute resolution.

In specific practices such as cross-border investment, cross-border family affairs, equity structure design, transaction model design, compliance management system construction and deepening, ESG compliance, and protection of technical secrets, Yu dissects rules at different levels, reorganizes client needs, and assists in designing, participating in, and maintaining business operations. He employs a variety of legal tools to provide comprehensive and systematic legal solutions while addressing key issues, achieving client risk management, and maximizing the exploration of business value and protection of client interests.

Based on long-term legal service practice and continuous professional legal studies, Attorney Yu Jin Yuan has a deep grasp of legal relationships and client needs. He has handled a large number of cases with substantial amount in dispute and complex difficulties, earning unanimous recognition and high praise from his clients.
